CAREER OPPORTUNITY

Department of Health and Human Services
National Institutes of Health
National Cancer Institute
Division of Cancer Treatment and Diagnosis
Cancer Therapy Evaluation Program
Medical Officer
GS-602-15

The Cancer Therapy Evaluation Program (CTEP), Division of Cancer Treatment and Diagnosis (DCTD), is seeking a physician with experience in the conduct of clinical cancer research for the position of Medical Officer, GS-602-15. Candidates should preferably be board-certified or board-eligible in medical or radiation oncology or in surgery with training in surgical oncology, or have the equivalent training and experience.

The CTEP is responsible for coordination of the clinical trials research development program of the DCTD, NCI. The Medical Officer will be responsible for overseeing the Clinical Trials Outreach Program. The Clinical Trials Outreach Program seeks to enhance participation of under-represented populations, including minority and elderly patients with cancer, on NCI-sponsored cancer treatment trials. This effort will involve collaboration with other NCI programs, including the Office of Centers, Training, and Resources, the Center for the Reduction of Cancer Health Disparities, and the Division of Cancer Prevention's Community Oncology and Prevention Trials Program. Opportunities for continued clinical activity and participation in clinical research are also encouraged.

Total compensation for this position, in the range of $155,000 to $175,000, is negotiable and is based on experience and expertise. Compensation may include a physician allowance, a one-time recruitment bonus and a future annual retention allowance. Benefits include health and life insurance options, retirement, paid holidays, sick and vacation leave.

Individuals interested in this position should direct their questions to:

Edward L. Trimble, M.D.; Clinical Investigations Branch
Cancer Therapy Evaluation Program
6130 Executive Boulevard, EPN Room 7024, MSC 7436
